

TAKE A TOUR.

The only way to appreciate the quantum leap Covenant Village takes in health care is to walk its hallways, meet our people and see what state-of-the-art looks like for yourself.

This is a community of caregivers who dedicate an unparalleled amount of knowledge and number of innovative resources to guide people like you or someone you love to a successful re-introduction to their lives.

Medicare Certified

- 24-Hour admissions / 7 days per week.
- Hospital or home assessment prior to admission is available.

Greater Care *for* Greater Cincinnati

A NEW VISION

in Providing Rehabilitative and Therapeutic Care.

When we began planning Covenant Village, we swept all the old ways of thinking off of the drawing table and started fresh. This couldn't be about numbers of patients in and numbers of patients out, as is so common. It had to be about giving you the best medical science has to offer to revitalize your body, strengthen your confidence and get you back to your world.

You'll see the differences the minute you arrive, from the wide, welcoming hallways to the higher ceilings and more spacious rooms. The building itself is smartly designed to integrate yet separate areas for working, living, learning and playing. This is not a place of gloomy halls and unhappy people. Activity, joy and interaction are the rules.

A grocery store, laundry and the features you expect are all here, along with many you've never seen.

We believe in real-world therapies, so Covenant Village presents advanced re-creations, such as a street corner with a stop light and crosswalk, an automobile and gas pump, a kitchen, a restaurant with booths and other environments that are critical to re-master before trying it alone. Our 1,700 sq. ft. aquatic therapy area with its state-of-the-art hydro-works pool absolutely redefines what a rehabilitation program can deliver.

Our caregivers are selected for dedication as well as ability. Our rooms are all private. Our equipment is the latest of its kind and compliant with Advanced Care Plus. And our attitude is friendly, helpful and unwaveringly confident that you will leave here to regain your independence and quality of life.
